SERVICE DESK ANALYST III | Technical Support | IT Automation

PROFILE

Service desk analyst in Dublin who automates the repetitive parts of the job. Alongside a full ticket queue, I've built tools the desk now uses every day, from new-hire access provisioning to vendor monitoring. BSc in Computing and a UCD Diploma in Cybersecurity, both with Distinction. Fluent in English and Portuguese.

SKILLS

ITSM & Ticketing: Jira Service Management, Confluence, ServiceNow, ManageEngine ServiceDesk Plus

Identity & Access: Okta, Active Directory, Microsoft 365 Admin Centre, 1Password, Twingate

Platforms: macOS (Jamf), Windows 10/11 Enterprise, iOS, Android, VMware/VDI

Cloud & SaaS: Google Workspace, Office 365, GitHub, Azure, GCP, Snowflake, Slack, Zoom

Automation & Dev: Google Apps Script, JavaScript, Node.js, HTML/CSS, PowerShell, Git/GitHub, Docker, Claude and AI agent workflows

Networking: LAN, DHCP, VPN, DNS, TCP/IP, MDM

EXPERIENCE

Service Desk Analyst III, Fanatics Betting & Gaming, Dublin — **Aug 2025 - Present**

- Resolved around 1,400 tickets in the past year at a 98% resolution rate for staff across the US, UK and Ireland: access and provisioning (Okta, GitHub, Azure, GCP, Snowflake, 1Password, Twingate), onboarding, offboarding and Mac/Windows support.
- Built a new-hire access tool that turns one request into the ~23 access tickets each starter needs, with routing rules drawn from a review of 1,600 past tickets. In production since July 2026.
- Built a status dashboard for 81 vendor status pages with Slack alerts. In a multi-week side-by-side trial it matched the paid monitoring tool and caught outages it missed, so the ~$4,000/year subscription is set to be cancelled.
- Built TicketFixer, a triage tool that fixes ticket types and fields and matches each ticket against 14,498 resolved ones, now shared with the desk through the company's Claude plugin catalogue.
- Developed the desk's Automation Hub (morning triage, ticket QA, live team metrics) and presented it to the wider team at a company offsite.
- Co-leading a cleanup of the 700-page service desk knowledge base: reviewed 100+ pages and wrote 19 guides and runbooks.
- Local IT contact for the Dublin office. Mentor a London-based analyst, and compared the Denver and London onboarding programmes to standardise new-hire training.

IT Support Analyst, An Garda Síochána (Vantage Resources), Dublin — **Sep 2023 - Aug 2025**

- First-line support, remote and on-site, across Windows, Office 365 and mobile devices in a high-pressure law enforcement environment.
- Managed accounts, mailboxes and groups in Microsoft 365 Admin Centre and Active Directory, including template accounts and GPOs.
- Supported VDI (RDP, VMware Horizon) and police systems such as body-worn cameras, CCTV, secure databases and field radios.
- Troubleshot network, VPN and firewall issues, used PowerShell for Windows admin, and documented workflows for the team.

Software Product Specialist, Servaplex Ltd. — **Sep 2022 - Sep 2023**

- Specialist for ManageEngine OpManager (network monitoring) and PAM360 (privileged access management). Certified OpManager Specialist.
- Ran pre-sales demos and supported clients across the ManageEngine suite, implementing it on client machines and networks.

Support Helpdesk Analyst, OpenSky Data Systems **Apr 2022 - Sep 2022**

- Worked tickets to SLA, supported Office 365 and Microsoft 365 account setup, and gave on-site support to the Ukrainian Citywest Temporary Accommodation Team.

Technical Support Assistant, LaptopLab **Nov 2016 - May 2017**

- Hardware repair, malware removal and system builds in a retail repair shop.

EDUCATION

Professional Academy Diploma in Cybersecurity (Distinction), UCD Professional Academy **May - Sep 2026**
BSc in Computing (Distinction), National College of Ireland **2018 - 2023**
Honours Leaving Certificate, St. Vincent's CBS, Glasnevin, Dublin **2012 - 2018**

CERTIFICATIONS & ADDITIONAL

- Certified OpManager Specialist (ManageEngine), CompTIA A+ (in progress)
- Fluent in English and Portuguese, full clean driver’s licence (B/BW)
